Fiji Travel Testing Protocols

OUTRIGGER.
HOTELS AND RESORTS

WHEN IN FIJI

1. Travellers must download Fiji's contact tracing mobile application, careFIJI and keep the device Bluetooth turned on at all times during their stay.
2. Effective January 1, 2022, all travellers from Travel Partner Countries, 12 years and over, must produce a negative PCR test taken no more than 2 calendar days prior to the scheduled day of departure.
3. Travellers must spend 3 nights in a CFC (Care Fiji Commitment) certified property and can take part in CFC approved excursions and activities within the Safe Travel Area (STA).
4. Travellers will be required to take an approved COVID-19 test after 48 hours of arrival at the hotel. After clearing a negative test, the traveller is free to explore the STA or enter the community.

CASTAWAY ISLAND, FIJI

- The 48-hour Rapid Antigen Test (RAT) requirement is to be completed after arrival into Fiji. The test will be conducted at the resort via our Registered Nurse who has been trained by VanMed Labs and results shared within 15 minutes.
- Depending on your country's return requirements, you may need to be tested for COVID-19 before you fly home. ALL Australian guests need a negative RT-PCR test to depart Fiji.
- Swabs will be taken by our Resort Nurse and sent to VanMed Labs Fiji with the results to be sent back to the resort via email within 24 to 36 hours.
- PCR swab samples will be transferred to the mainland via speed boat and the charge of \$300 will be shared amongst bures that will have pending tests – the more the bures/guests the less the charge.

CASTAWAY
ISLAND, FIJI.

OUTRIGGER FIJI BEACH RESORT

- The Rapid Antigen Testing (RAT) is required after 48 hours in Fiji to allow guests to move within the safe zones in Fiji. The test results will be shared to you within 15 minutes; this test will be conducted within the resort at the medical clinic.
- If PCR tests are required by your government for re-entry into your country. Testing will be conducted by a Fiji Ministry of Health approved mobile clinic along the coral coast, including at Outrigger Fiji Beach Resort. Swab results take 24 to 36 hours and will be advised via email.

OUTRIGGER.
FIJI BEACH

All applicable guests will be required to be tested with costs automatically charged directly to the guest room.

Castaway Island, Fiji – (RAT) Rapid Antigen Test will cost FJ\$25 per test and (PCR) Polymerase Chain Reaction will cost FJ\$180 per test; all Fiji Government taxes included.

Tests will be conducted by the Resort Nurse on site and taken to VanMed Namaka lab for Castaway Island, Fiji. All PCR tests must be completed at scheduled times, as swabs are sent to the mainland lab clinic at 10am daily.

Outrigger Fiji Beach Resort – (RAT) Rapid Antigen Test will cost FJ\$50 per test, (PCR) Polymerase Chain Reaction will cost FJ\$220; all Fiji Government taxes included.

Testing is conducted via an approved mobile clinic by Ministry of Health for Outrigger Fiji Beach Resort with the results emailed to the Resort designated email address within 24 to 48 hours.

The above testing information is subject to change as determined by the Ministry of Health; for more information please visit the Fiji Ministry of Trade, Tourism & Transport or www.fiji.travel/faq.
